A friend of mine, with traits unique,
Allergies restrict, yet he reached the peak.
Chemistry lab reports, a constant chore,
Social skills lacking, but still he soars.

Gluten, eggs, and milk bring dietary plight,
But on the Rift, he unleashes his might.
His potion of skills, a force to be seen,
In League of Legends, he reigns supreme.

Lab experiments and formulas are his game,
Mastering the field, chemistry's his aim.
In social realms, a challenge to face,
But in League, is his rightful place. (edited)
